

What is FreeConference Mobile 2.0?

FreeConference Mobile 2.0 gives you all the tools you'll need to keep your communications organized and efficient. As an Organizer you can schedule, share, conduct, record and view conferences on your mobile phone.

FreeConference Mobile Features

- Integrates seamlessly with your FreeConference.com account
- Advanced OneTouch™ dial-in already includes access codes to bring you directly into your conference
- Send conference information to Evernote, Google, Facebook, Twitter and Outlook
- Allow your assistant to schedule conferences for you with Executive AssistantSM Mode
- Invite participants using the contacts on your phone and your FreeConference.com contacts
- Send invitations via email or text message
- Save conferences to your phone's calendar
- Receive conference call alerts with one-touch dial-in
- View your conference history
- Listen to conference recordings
- Record a personalized greeting
- View your account stats

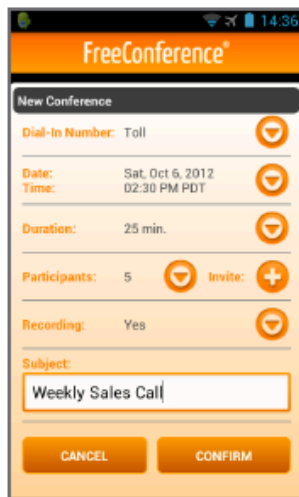

Scheduled Conferences:

The date and time of your next conference will be visible. Four mins prior to the scheduled start time the Quick Call button will be enabled and you can enter your conference.

Schedule a New Conference & View all Conferences

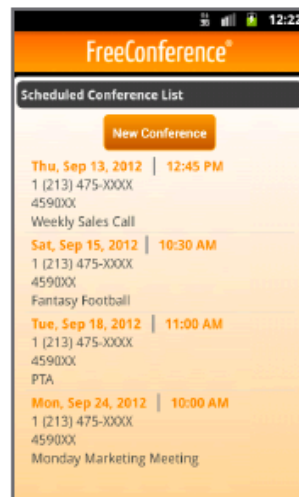

Quick Call Button:

Initiate a new reservationless Conference-on-Demand call by clicking the Quick Call Button.

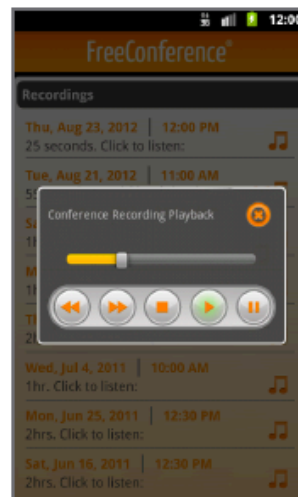

Create and Invite:

Select the dial-in number, date, time, duration and number of participants for your conference.

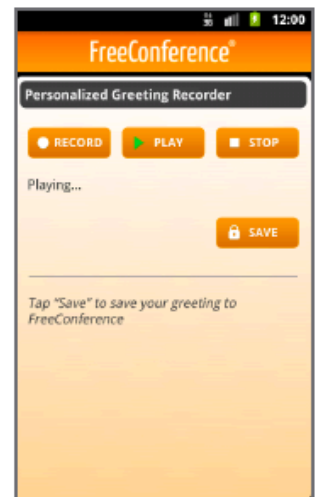

Upcoming Conferences:

View, edit, delete or copy any of your upcoming conferences.

Conference Recording:

Access your recording about 1 hr after your conference ends.

Personalized Greeting:

Record your own custom greeting to welcome participants to your conference.

Conferencing at Your Fingertips

-  **Home:** View or schedule your next conference, or start one on-the-fly in the Conference-on-Demand section.
-  **New:** Schedule a new conference call.
-  **Conferences:** Access your upcoming and previous conferences.
-  **My Stuff:** Access your conference recordings, personalized greeting and account stats.
-  **More:** Access your account settings, help and quick reference guide.

Device Requirements

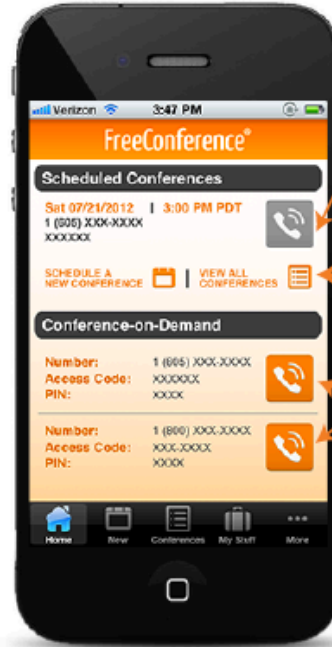

- Android OS version 2.2 or later
- iPhone iOS version 5.0 or later
- Windows Phone 7.5 or later
